LifeLock Benefit Elite protection is aimed squarely at what matters to employees – helping protect their identities and helping protect their nest eggs. While most employees have a 401(k), many may set it and forget it – which means they could miss important cues that may indicate potential fraud. LifeLock Benefit Elite protection helps detect potential fraud and brings it to the attention of employees through alerts within the company’s network via email, text or phone.† The company’s network, however, does not cover all transactions.

Available only through employers, LifeLock Benefit Elite protection helps protect 401(k) and other investment accounts from fraudulent withdrawals and balance transfers. LifeLock also searches over a trillion data points every day for potential threats to its members’ personal identity, including suspicious uses of name, address, phone number, birth date, and Social Security number to obtain loans, credit and services, or to commit crimes.

If an employee becomes a victim of identity theft while a LifeLock member, LifeLock will spend up to $1 million to hire the necessary lawyers, accountants and investigators to help with recovery.‡

Benefits of LifeLock Benefit Elite

LifeLock Identity Alert® System†
The patented LifeLock Identity Alert® system monitors over a trillion data points for fraudulent attempts to use your Social Security number, name, address or date of birth in applications for new credit cards, wireless services, retail credit, mortgages, auto and payday loans. The system alerts you to suspicious activity by text, phone or email.*

Investment Account Activity Alerts
Review your investment account activity and get alerts for cash withdrawals and balance transfers to help detect fraudulent activity.†

Fictitious Identity Monitoring
Scans for names and addresses associated with your Social Security number in public and credit record sources such as credit grantors, state agencies, and collection agencies to help determine if criminals are building fictitious identities to open accounts or commit fraud.

Data Breach Notification
Your identity is virtually everywhere. Doctors, insurance companies, employers, even your favorite retailers. We’ll let you know about publicly reported large scale security breaches so you can take action to help protect your personal information.

Court Records Scanning
Monthly court record checks for matches of your name and date of birth to criminal activity to help protect you from being falsely linked to arrests and convictions you know nothing about.

Black Market Website Surveillance
Identity thieves illegally buy, sell and trade personal information on black market Internet sites around the world. LifeLock patrols over 10,000 criminal websites and notifies you if your private data is found.

About LifeLock
LifeLock is a leader in identity theft protection services. Our focus is on helping you protect your identity, which may not be the focus of a bank or credit card company – to help focus on protecting identity in an always-connected world.
